PERSONAL PROFILE

I am a results-oriented Software Engineering professional with technical expertise in modern full-stack web development, responsive front-end engineering, and WordPress platform administration. Skilled in converting Figma designs into mobile-first, accessible, and high-performing web platforms using HTML5, CSS3, JavaScript, PHP, and Laravel. Experienced in integrating M-Pesa payment gateways, analytics, and third-party APIs while managing staging environments and technical SEO. Currently honing my skill set as an IT volunteer at Intercen Publishers, I offer strong analytical abilities, a quick-learning mindset, and clear communication skills to explain technical concepts to non-technical teams and clients.

SKILLS

- Responsive & Mobile-First Web Development (Figma to Code)
- WordPress Architecture & Custom Frameworks (PHP / Laravel)
- Payment Gateway (M-Pesa API) & Third-Party Integrations
- Technical SEO, Accessibility, & Site Speed Optimization
- Staging Environments, Deployment, & System Testing
- Technical Support, Troubleshooting, & Post-Launch Maintenance
- Stakeholder Communication & Technical Training

TECHNICAL TOOLKIT

- Languages: PHP, JavaScript, HTML5, CSS3, Python
- Frameworks & CMS: WordPress (Astra/Kadence), Laravel, React.js, Node.js, Bootstrap/Tailwind CSS
- Databases & Tools: MySQL, PostgreSQL, Figma, Git, GitHub, Google Analytics, Technical SEO Tools

ACHIEVEMENTS

- Successfully built and deployed Hayai Solutions, a fully responsive web platform featuring custom CSS animations, SEO optimizations, and PHP SMTP form processing.
- Engineered and launched a complete digital platform for Incense Sanctuary, featuring custom content structures, media management, and admin controls.
- Designed a secure real-time messaging platform using Node.js, PostgreSQL, WebSockets, and JWT authentication.
- Built a custom Global Cargo Tracking system featuring dynamic tracking tools, customer portal forms, and database management.

PROFESSIONAL EXPERIENCE

INTERCEN PUBLISHERS | IT Department Volunteer | Aug 2026 – Present

- Maintain internal digital assets and support publishing web workflows, ensuring high platform uptime and database consistency.
- Perform website performance troubleshooting, content structure updates, and technical problem-solving to support daily operations.
- Collaborate with non-technical publishing staff to provide ICT support, technical training, and system guidance.

ICT AUTHORITY KENYA | ICT Attachee | May 2025 – Aug 2025

- Supported in developing and maintaining Laravel and custom PHP web applications for national digital initiatives.
- Translated design requirements into responsive, production-ready interfaces with a strong focus on accessibility and cross-browser performance.
- Configured staging environments, conducted unit testing, and resolved bugs to prepare web applications for secure public deployment.

WEBUYE COUNTY HOSPITAL | ICT Attachee | Apr 2024 – Aug 2024

- Maintained network infrastructure, system connectivity, and technical hardware to ensure seamless operational continuity.
- Resolved technical platform issues and provided post-launch technical support and training to administrative staff.

EDUCATION AND QUALIFICATIONS

- Bachelor of Science in Software Engineering – Kirinyaga University-2026
- Kenya Certificate of Secondary Education (KCSE) – St. Patrick's National School, Iten
